

## FAITHFULL Engineers Hand Second Cut File

### Description

---

The FAITHFULL Engineers Hand Second Cut Files are double cut with a safe edge, and a soft grip handle for comfort and ease of use. The medium file (approximately 36tpi) is generally used for a finer finish and features a flat blade which is parallel in width and slightly tapered in thickness towards the tip.

### Features

---

- Approx. 36tpi
- Medium file for a finer finish
