

FAITHFULL Engineers Hand Bastard File

Description

The FAITHFULL Engineers Hand Bastard Files are double cut with a safe edge, and a soft grip handle for comfort and ease of use. The coarse file (approximately 26tpi) is generally used for quick removal of material and features a flat blade which is parallel in width and slightly tapered in thickness towards the tip.

Features

- Approx. 26tpi
- Coarse file generally used for quick removal of material
- Soft grip handle
- Double cut with safe edge
- Flat bastard file
