

## XPert Toolbox PVCu Saw - 14 Inch 16ppi

### Description

---

The XPert Toolbox PVCu Saw has a 360mm (14") long, fine 16ppi blade with a 0.09mm thickness. Its compact size ensures it is small and light enough to fit into most toolboxes, meaning it is perfect for making small, intricate cuts in plastic building essentials, such as PVCu window trims, sills and piping. It has a light yet sturdy plastic handle with a steel core and comes complete with a ruler printed on the top edge for quick and convenient measuring of up to 100mm.

### Features
