

XPert PVCu Saw - 20 Inch 14ppi

Description

The XPert PVCu Saw has a 508mm (20") long 14ppi blade with hard-point teeth which are designed to stay sharper for longer. It cuts cleanly and evenly through PVCu, fascia, piping, soffits and trims, ensuring a smooth, straight cut with minimal burring. It features a rubberised handle for sure grip and comfort, plus a ruler printed on the top edge for quick and convenient measuring of up to 350mm.
