ASEC Smart Video Doorbell

Description

The ASEC Smart Video Doorbell has 1080P HD video and live streaming, complete with 16G SD card and IR night vision for coverage around the clock. It features a 166° wide angle lens and built-in 2 way audio to enable the user to conveniently communicate with visitors, and works with up to 5 users per device. The use of the free iOS and Android supported app allows for alerts to be sent to your mobile device when motion is detected, streaming an image to your device to alert you of any activity. Being battery powered (rechargeable) it is very easy to install however if preferred it can also be hard wired in. It is supplied complete with a USB charging cable and a plugin chime - additional plugin chimes can be added and are available in the related products.

Works With An App	Battery Backup	IP55 Ingress Protection Rating	Wireless Data Connection
