

Description

The AXIM Locking Handle is designed to be suitable for use with the PR7085 Panic Bar Exit Device & the PR7085P Push Pad Exit Device and is suitable for retrofit applications. The key locking handle is supplied with 2 keys and enables access from outside when required - it can be locked via turn of key to prevent access from outside, but the internal panic bar/push pad still allows for escape from the inside. It is supplied complete with the Axim screw-in cylinder and is suitable for door thickness 46mm. The handle is reversible and can be used for both left hand and right hand applications.

Supplied With 2 Keys
