

SQUIRE GA5 Sold Secure Motorcycle Bronze Garage Door Protector

Description

The SQUIRE GA5 Garage Door Protector is Sold Secure Bronze approved and provides extra security for up and over garage doors. It is manufactured from hardened steel and features a 5 pin tumbler lock mechanism. The tilt action arm locks into place to prevent the garage door from being opened and can be driven straight over once opened, with no removal needed. It is supplied complete with 2 keys and all fixings and fitting instructions to ensure a simple ground fitting in front of the garage door.

Supplied With 2 Keys
