

CL0510 Marine By Codelocks Digital Lock

Description

The CL0510 and CL0515 from the Marine by Codelocks 500 series are heavy duty locks suitable for internal or external use and high traffic environments. It has been salt spray tested to 1000 hours and comes complete with neoprene seals included, ensuring it can withstand harsh outdoor environments and even coastal applications. The lock has a black finish with stainless steel buttons and is designed to suit doors with a thickness of 35mm to 60mm. There are up to 2,047 non sequential code combinations available and it features tumbler alignment for easy code change.

Clean by Codelocks is an optional finish available to special order on many Codelock products. The clear coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%*, providing an additional measure of protection over sanitisation. Clean by Codelocks features an ISO certified photocatalytic coating which offers enhanced protection against viruses, bacteria, germs and other environmental toxins. For full details please view the data sheet in the associated documents or to order please contact our Specials Department.
