

BEE-SECURE RFID Key Pouch - Polyester

Description

The BEE-SECURE RFID Key Pouch is a protective storage pouch which prevents wireless signals from communicating to any car keys and payment cards, and also mobile phones and passports. It blocks signals including phone calls, WIFI, GSM, 4G, Bluetooth and NFC. It is 1680D polyester with metallic fabric and a gold lined key pocket, and comes complete with a key chain to conveniently attach keys.

Features

- Gold lined key pocket complete with key chain
- 1680D polyester with metallic fabric
- Blocks signals including phone calls, WIFI, GSM, 4G, Bluetooth & NFC
- Protective storage pouch
