

ABUS Padlock Cylinder Cover & Cap

Description

The ABUS Cylinder Cover & Cap is designed to be fitted to the bottom of the Abus 83 series padlocks. It is easy to fit and will prolong the life of the padlock mechanism by reducing the ingress of harmful dust and debris, especially when installed in harsh environments. Please note that these may require warming up (use a bowl of warm water) to fit as they are designed to be tight fitting.

Features

- Padlock ordered separately
- Easy to fit
- Increases the life of the locking mechanism in harsh environments
- Cylinder cover and cap to suit Abus padlocks
