

MASTER LOCK Twin Wire Bungee Cord Set of Two 60cm x 8mm

Description

The MASTER LOCK Twin Wire™ Bungee Cord comes as a set of 2 and features two 60cm x 8mm bungee cords with wire hooks. The two wire hooks offer more resistance than a traditional single wire hook bungee cord, with a reverse hook design for more room for fastening and rounded hook ends to prevent damage from scratching. The bungees are easy to stretch and use and are ideal to maintain light loads, with up to 40kg resistance (TÜV certified). They are perfect for holding van stock securely when transporting and strapping safes for transit.

Features
