

ABUS LD1118 Fire Blanket - 1m x 1m

Description

The ABUS LD1118 Fire Blanket is ideal for domestic use and can be used to reliably extinguish smaller fires as they break out, such as fires caused by chip pans or burning clothes. It is manufactured from coated fibreglass fabric and is quick and easy to use, automatically unfolding once removed by pulling the straps. The fire blanket comes complete in a robust pouch with eyelet for wall mounting. It is maintenance-free and is tested and certified as per DIN EN 1869:2001. Please note that the fire blanket can only be used once.
