

SASHSTOP Original Sash Stopper - Keyed Alike Pair

Description

The SASHSTOP Original is a versatile product which can be used on UPVC, composite and wooden doors. The patented mechanism allows internal and external operation independently from one another, with the external key lock overriding the internal arm, providing additional security for your doors and windows. These sash stops are supplied as a pair and are keyed alike.

Supplied With 2 Keys

Keyed Alike

Reversible Handing
