

Description

The BONAITI SERRATURE B-Smart Magnetic Euro Lock is a magnetic lock with latch and bolt suitable for Euro cylinders. It features a 22mm front plate and can be used with steel and aluminium frames. It has only a few moving elements ensuring reliability and no required maintenance, and is also corrosion resistant. The mechanism ensures silence and fluidity during the opening and closing of the door and it is fully reversible for use on both left and right handed applications.

50mm Backset

Operated By Euro
Cylinder

Reversible Handing
