

L&F 2800 Mechanical Combination Lock

Description

The LOWE & FLETCHER 2800 Combination Lock is a 4 wheel combination lock with up to 10,000 unique applications. The zinc die-cast construction has a powder coated finish and is fitted with a 45mm cam. The pin code can be set and changed quickly and easily with a simple button, and the innovative code finding function allows for convenient emergency access in the event of a lost or forgotten code. The robust design is suitable for a wide range of applications, such as lockers and office furniture, and it is versatile with reversible handing.
