

FIRESTOP Self-Adhesive Intumescent Sheet

Description

The FIRESTOP Self-Adhesive Intumescent Sheet is a valuable investment when fireproofing properties. Manufactured from 1mm thick intumescent sheet which expands when heated, it is ideal for protecting door hardware. This versatile sheet is supplied with no cut-outs or perforations so that the user can cut it to whatever dimensions they require. It has been fully fire tested and is suitable for both 30 and 60 minute applications and features a useful self-adhesive backing for ease of installation.
