

FIRESTOP Self-Adhesive Universal Intumescent Sashlock Kit

Description

This FIRESTOP Self-Adhesive Universal Intumescent Sashlock Kit helps to protect door ironmongery and prevent the spread of fire, making it an ideal investment when fireproofing properties. It is manufactured from 1mm thick intumescent sheet which expands when heated to preserve the lock and seal any gaps. The intumescent strip is scored along fold lines for easy full wraparound, suitable for both radius and square forends. This intumescent kit has been fire tested to BS EN 1634-1 and BS 476: Part 22 and are suitable for both 30 and 60 minute applications.
