

## MINDER Door Brace

### Description

---

The MINDER Door Brace is a security bar designed to stop forced entry from the outside of your door and will work with most hinged and sliding doors and windows, suitable for carpet, wood and tiled flooring. The strong 20 gauge steel tube installs easily under the door knob or handle and can withstand force of up to 150kg, with the ability to extend between 700mm and 1130mm for versatility. It is easily portable and simple to use and is the ideal product for individuals who may feel vulnerable in their home.
