

Description

The KICKSTOP 9630 London Door Bar is a door frame reinforcing bar with a 'D' shaped staple to fit over the staple (keep) of a surface fitted rim lock or cylinder night latch. This effective steel anti-burglary device is screwed onto the internal face of the lock side of the frame and will resist kicking, splitting and forcing open of the door. The 9630 version is designed for extra large staple sizes of 40mm x 105mm (or less).

Features

- Supplied with packet of 2.5 inch long No.10 hardened steel woodscrews
- 5mm thick steel bar with rounded edge & countersunk holes
- Staple size 40mm x 105mm
- To reinforce wooden door frames fitted with a surface mounted rim lock or nightlatch
- Extra large D shaped staple
