

INGENIOUS 1007 Lever Operated Latch & Hookbolt - 2 Hook

Description

The INGENIOUS 1007 Lever Operated Latch & Hookbolt is a full multipoint lock unit with 2 hooks. It features a euro profile centre case with a 20mm radius faceplate and twin spindle, it has a reversible latch, holdback function and anti manipulation plate. The unit can be locked by lifting the lever to engage the locking mechanisms, after which a turn of the full cylinder locks it up; one full turn of the key followed by a push down on the lever unlocks the unit.

It is Secured by Design (Police approved specification), compliant to PAS 24 and BS 6375-2, plus has been tested to BS EN 1670 Grade 5 and comes complete with a 10 year guarantee.
