

KICKSTOP 9612 & 9613 16mm London Door Bar To Suit Ingersoll SC71 Nightlatch

Description

The KICKSTOP 9612 & 9613 16mm London Door Bar is a door frame reinforcing bar with a 'D' shaped staple to fit over the staple (keep) of the Ingersoll SC71 nightlatch, with a maximum staple size of 30mm x 70mm. This effective steel anti-burglary device is screwed onto the internal face of the lock side of the frame and will resist kicking, splitting and forcing open of the door. The 9612 & 9613 versions are a modified standard staple designed only to suit the Ingersoll SC71 and are supplied handed to suit left or right handed applications.

Features

- Supplied handed for left or right hand applications
- Supplied with packet of 2.5 inch long No.10 hardened steel woodscrews
- 5mm thick steel bar with rounded edge & countersunk holes
- Maximum staple size 30mm x 70mm
- To reinforce wooden door frames
- D shaped staple to suit Ingersoll SC71 nightlatch
