

Description

The KICKSTOP 2609 London Door Bar is a door frame reinforcing bar with a 'D' shaped staple to fit over the staple (keep) of a surface fitted rim lock or cylinder night latch. This effective steel anti-burglary device is screwed onto the internal face of the lock side of the frame and will resist kicking, splitting and forcing open of the door. The 2609 version is designed for large staple sizes of 30mm x 97mm (or less).

Features

- Supplied with packet of 2.5 inch long No.10 hardened steel woodscrews
- 5mm thick steel bar with rounded edge & countersunk holes
- Staple size 30mm x 97mm
- To reinforce wooden door frames fitted with a surface mounted rim lock or nightlatch
- Large D shaped staple
