

Description

The KICKSTOP Universal StapleGuard is a four bolt steel StapleGuard suitable for most sizes of staple and is used to reinforce and strengthen wooden door frames. It is 20mm wide and features a universal 'D' shape staple to fit over lock staples (keeps) which are 30mm x 97mm (or less) - the fixings allow for an adjustable internal size of between 70mm and 97mm, making this the perfect choice if you are unsure whether your application requires a standard or large size staple.

Features

- Fits over lock staple/keep size 30mm to 97mm (or less)
- Adjustable internal size between 70mm and 97mm
- Used to reinforce and strengthen wooden door frames
- 20mm wide
- Suitable for most sizes of staple
- Four bolt steel StapleGuard
