

SQUIRE STH3 High Security Hasp & Staple

Description

The SQUIRE STH3 extra high security hasp and staple is CEN grade 4 rated and comes with Secured by Design (Police approved specification) and Silver Sold Secure approval. Its hardened steel construction with anti-corrosion finish makes it particularly heavy duty and it features a hardened steel staple for extra resistance to attack.

It can take padlocks with shackles of up to 13mm and is ideal for securing external storage facilities and sheds to meet new SBD requirements for homes.
