

ABUS Titalium 64TI Series Adjustable Long Shackle Padlock

Description

The Abus Titalium 64TI Series Adjustable Long Shackle Padlock allows you to extend and contract the shackle to suit the application on hand. TITALIUM locks by Abus represent a new dimension in security and represent a high level of security whilst weighing significantly less (30%) than comparable locks. This is all thanks to the innovative material of which the locks are made, namely a special aluminium alloy that uniquely combines a high level of torsion with lightness. The TITALIUM locks have a modern stainless steel finish, and offer both maximum strength & low weight.

Supplied With 2
Keys

Keyed To Differ

Weather Resistant
