

Description

The HOOPLY FT09 Handle and Escutcheon Kit has been designed to be fitted individually onto the door to give more of a European style handle configuration. They come complete with all fixings and an integrated thumb turn within the internal escutcheon. Please note that these handles are not compatible with Latham's stock steel door ranges.

Features

- Not compatible with Latham's stock steel door ranges
- Separate lever handle and escutcheon for steel doors
- More of a European style handle configuration
- Integrated thumbturn on internal escutcheon
- Handed product
- Sold as a pair
