

Description

The Hooply 95 CEFIRO 3 Point Lock Sashcase is a security mortice lock typically installed within UK made robust steel doors. It cannot be used with a multi point locking system but has a 28mm faceplate, 85mm centres and has a reversible latch making it suitable for use in both left hand and right hand applications.

This Hooply 95 lock is operated with a euro cylinder (sold separately) but can also be paired with the Hooply CEFIRO ZTB002 Handles. Please note that these handles are not compatible with Latham's stock steel door ranges.

60mm Backset
