

Description

The Chubb safes Zeta range of Grade 1 safes are economical and stylishly designed for both commercial and domestic use. They are suitable for cash (rated up to £10,000), jewellery and other valuables (rated up to £100,000). They are certified by ECB•S to European standard EN 1143-1 Grade 1 and also AiS approved.

They have an 8mm thick steel door, 45mm thick steel body and 25mm diameter steel locking bolts. All safes in this range are supplied complete with a removable shelf and are suitable for floor and wall fixing. Their design features an integral and a squash court style handle and the safes are supplied in an attractive dark grey colour (RAL 7016). These safes are available with either a key or an electronic lock, the latter version can have 2 user codes and time delay.

£10,000 Cash Rating
