

SILCA IRFH16 3 Button Universal Remote Car Key

Description

The Silca IRFH16 is a 3 button universal remote car key, once programmed this quality remote will duplicate the functions of the original vehicle key. They are available in different designs making them suitable for the most popular brands worldwide. They feature three push buttons for lock, unlock and boot release, and incorporate a Silca quality retractable flip blade.

The Silca Universal Remote Cable connects the remote to a smart phone to pre-set a new remote in just a few seconds. You just need to select the vehicle model from MySilca SRP app and the cable enables pre-set data to be written onto the remote key.
