

INSAFE S2 Certified Safe 4,000 Rated

Description

The Insafe S2 range of safes are perfect for small business, offices, retailers, the leisure and hotel industries and homes requiring protection of their valuables, jewellery and cash. The S2 range of S2 Graded Safes have all been tested and certified by the LPCB and gained insurance approval by the AiS (Association of Insurance Brokers), they offer cash ratings up to £4,000 and valuables up to £40,000.

The doors are secured by 19mm diameter polished chrome plated steel locking bolts, there is fire protection material in both the body and the door, there is drill protection around the lock and all safes have an attractive black sparkle paint finish.

The Insafe S2 safes are available with either a high security key lock (tested to European Standard EN1300) or a high security Class 2 electronic lock and come with an adjustable removable shelf and a base fixing kit.
