

GJ Locks Pin & Cam Decoder For Chubb/Union

Description

This GJ Lock multi-tool is effective on the whole range of detainer locks including 3G110, 3K70, 3R35, 3J60 and all the variants. Whilst the mechanical process is the same as our previous pin & cam decoders. The user does need to be more methodical using this tool as there are 9 possible pin heights for each lift. Opening times will vary on detainer configuration, but average opening times are between 5 and 10 minutes.

Mortice Key
