

SILCA Flash Mobile Rechargeable Battery Operated Key Cutting Machine

Description

The Silca Flash mobile is a rechargeable battery operated key cutting machine, offering the perfect space-saving solution for small shops or on-the-go locksmiths. Lightweight, durable and compact, the machine can duplicate up to 300 brass keys, or up to 180 steel keys when fully charged.

The machine is ideal for cutting flat cylinder and vehicle keys, as well as cruciform keys and keys with long neck, tip-stop and a flip mechanism. Optimised calibration and smooth carriage movements with a long lasting resistant-to-wear cutter for easy and smooth cutting, ensures that your cut keys are always finished perfectly.
