PENKID Push Release Window Restrictor

Description

The Penkid Push Release Window Restrictor is suitable for use on aluminium, timber & uPVC windows and timber, uPVC & composite doors. The cable ensures a restricted opening of a window, with a maximum opening of 15cm, ideal for preventing accidents or injury and providing extra child safety and home security.

The push release system means that there is no need for a key and allows the window to be opened fully when the restrictor is unlocked, whilst also preventing accidental unlocking of the restrictor.

The restrictor is easy to install and is supplied complete with cover plates, self-drilling screws and fitting instructions.

Features

- Easy to install
- Supplied with cover plates and screws for fitting
- Endures force up to 550Kg
- Push release system means the restrictor requires no key
- Allows for a maximum 15cm opening
- Suitable for use on aluminium, timber & uPVC windows and timber, uPVC & composite doors
