

ERA TS003 Certified Door Restrictor

Description

The ERA Door Restrictor is designed to limit the door opening, enabling the user to safely check callers ID and allowing conversation without giving access to visitors. The door restrictor is easy to apply and release and can only be unlocked when the door is closed. It is supplied complete with screws for fixing, is TS003 certified and is approved to BS 8213-1:2003 and PAS 24:2012 standards.

10 Year Guarantee
