

# SILCA Poker Pro Key Machine

## Description

---

This SILCA Poker Pro Key Machine is an automatic key cutting machine for flat cylinder residential and vehicle keys with both single and double cuts, and also cruciform keys with 'x' type profile. Compact in design, it is both easy to use and easy to carry. Equipped with a laser optical reader, this ensures keys are read precisely for perfect duplication, with a hard metal cutter which allows for cutting any side of a key with just one cycle. With a protective safety shield, which when opened halts the cutter and the carriage, plus both visual and audible warnings, safety of the user is ensured.

Cylinder Key
