

Description

This KICKSTOP StapleGuard is a four bolt StapleGuard designed to fit over the Ingersoll SC71 nightlatch and is used to reinforce and strengthen wooden door frames. It is 20mm and is a modified version of the standard 'D' shape staple to fit over lock staple (keep) which is 30mm x 70mm (or less) and features a cut out to allow the lock springbolt to pass through.

Features

- Supplied handed for left or right hand applications
- Used to reinforce and strengthen wooden door frames
- 20mm wide
- To suit the Ingersoll SC71 rim lock
- Four bolt steel StapleGuard
