

ALPRO ALP210S (YD30S) Cobalt Mini Electronic Side Load Lock

Description

The ALPRO ALP210S-YD30S Electronic Mini Side Load Lock is designed for 90° swing doors. Also known as the Cobalt Mini it is a revolutionary low voltage motor driven electronic lock. Due to its small footprint it can be easily installed in most locations and has a really useful automatic misalignment adjustment +/- 8mm. The door can have in excess of 100Kg being applied and it will still release instantly when requested. With dual monitoring it has both door and bolt position monitors and is easily converted from fail safe to fail secure by repositioning a single jumper.

3 Year Guarantee

Electronically Monitored

Reversible Handing
