

MASTER PICK MasterExpert Rechargeable Electropick Set

Description

This new version cordless rechargeable lock pick set from Master Pick has a lithium-ion battery that charges quickly and almost doubles the usage time over its predecessor. A battery slot has been incorporated in the design so that the battery can be removed and charged separately so you can continue working by inserting a spare battery. The engine power of the device has also been increased which makes it easier to open 6 pin cylinders.

Also a useful and stylish bag is supplied, and a comprehensive accessory set has been created including plenty of Yale tips, various clasps, drawer and latch lock picks.

Features

- Battery can be removed to charge it separately
- New generation lithium-ion rechargeable battery
- Stronger hits thanks to improved engine power
- High speed vibration
- Supplied with auxiliary accessories and a stylish tool bag.
- LED battery level indicator lamps
- Supplied in heavy duty carry case
