

## MASTER PICK MasterExpert Rechargeable Electropick Set

### Description

---

This new version cordless rechargeable lock pick set from Master Pick has a lithium-ion battery that charges quickly and almost doubles the usage time over its predecessor. A battery slot has been incorporated in the design so that the battery can be removed and charged separately so you can continue working by inserting a spare battery. The engine power of the device has also been increased which makes it easier to open 6 pin cylinders.

Also a useful and stylish bag is supplied, and a comprehensive accessory set has been created including plenty of Yale tips, various clasps, drawer and latch lock picks.

### Features

---
