

AMALOCK SV2 Smart Video Entry Kit Surface With Keypad

Description

The Amalock SV2 wired smart video entry kit is designed to communicate directly to your mobile devices using wireless Wi-Fi. Whenever the button is pressed on the outdoor call unit, your mobile device and indoor monitor is sent a notification to enable you to remotely unlock.

The kit contains 1 x 7" touchscreen monitor, 1 x keypad call panel and 5 x key fobs. The keypad allows pin code entry and fingerprint entry and the unit features HD video, night vision, motion alert and 2 way audio. The kit is also expandable by adding 2 CCTV camera's, an extra call panel and up to 5 extra monitors.
