

# AMALOCK SV1 Smart Video Entry Kit Surface

## Description

---

The Amalock SV1 wired smart video entry kit is designed to communicate directly to your mobile devices using wireless Wi-Fi. Whenever the button is pressed on the outdoor call unit, your mobile device and indoor monitor is sent a notification to enable you to remotely unlock.

The kit contains 1 x 7" touchscreen monitor, 1 x call panel, 1 x angled bracket and 5 x key fobs. The unit features HD video, night vision, motion alert and 2 way audio. The kit is also expandable by adding 2 CCTV camera's, an extra call panel and up to 5 extra monitors.

Works With An App
