AMALOCK CAM600FL Floodlight Wi-Fi Video Camera

Description

The Amalock CAM600FL floodlight wi-fi camera is powered by a 12VDC plug in supply provided in the box. It works with a downloadable app which comes with 30 days free cloud storage. There is also a micro SD card slot if this is preferred for storage.

It features IR night vision with 1080p HD video and live streaming. Whenever a motion is detected the camera streams an image to your mobile device to alert you of any activity, whilst the built in 2 way audio allows communication.

Works With An App

IP65 Ingress Protection Rating

Wireless Data Connection
