

## SQUIRE 555 Stainless Steel Old English Marine Padlock

### Description

---

The Squire 555 is an addition to the very popular Old English range of lever padlocks. Ideal for marine environments these padlocks have a stainless steel shackle and body casing, which improves the resistance to the harshest conditions. They have been tested to withstand 480 hours of salt spray test and are available on the same keyed alike suites as the steel shackle 440 range. Typical uses are boats, jet skis, fishing equipment, marinas, beach huts, harbour and beach locations. Each padlock is supplied with 2 keys and comes with the Squire 10 year guarantee.
