

SQUIRE CP50/ATLS - All Terrain Stainless Steel Shackle Combination Padlock

Description

The Squire CP50/ATLS All Terrain combination padlocks are designed to withstand even the harshest of weather conditions. They feature a stainless steel shackle and a weather protected 4 wheel combination mechanism which offers 10,000 possible combinations. The mechanism is fully recodable and easy to use. It offers an ideal solution to provide locking solutions in situations that require single or multi users without keys.

10 Year Guarantee
