

Description

The Intratone interactive digital notice board is a brilliant solution to making communication to tenants faster, easier and more inclusive. The secure remote online management system means important information can be displayed such as maintenance schedules, public health information and general announcements. Featuring 10mm safety glass and security screws the display board is vandal resistant, and the built in proximity reader allows secure survey responses for the tenants by using their fobs.

Wireless Data Connection

Features

- Unlimited data for 15 years
- 15" colour screen
- For indoor use
- Upload files from PDF or Word format
- Proximity reader
- Vandal resistant
- Scroll buttons
- Real-time resident information without going on site
