

Description

The Evva HPM Dust Cover is designed to be fitted to the bottom of a pre-drilled Evva HPM Padlock. It is easy to fit and will prolong the life of the padlock mechanism by reducing the ingress or harmful dust and debris, especially when installed in harsh environments.

Features

- Padlock ordered separately
- Easy to fit
- Increases the life of the locking mechanism in harsh environments
- Dust cover to be fitted to HPM padlock body
