

Description

The ABLOY EA280 concealed door loop is a lead cover that enables the unbroken transfer of wires between the frame and the door for doors that open up to 120 degrees. It is suitable for wire bundles up to 7.5mm diameter and is totally hidden when the door is closed.

Features

- Maximum door opening angle 120 degrees
- Dimensions: 323mm (H) x 24mm (W)
- Bright chrome finish
- Not suitable for use on centrally pivoted doors
- Suits wire bundle with maximum diameter of 7.5mm
- Suitable where the distance from the hinge pin to the door frame is below 20mm
