

Description

This AC/DC universal relay will work on 9-30VAC / DC10.5-36 VDC, and is a simple to fit module wherever a dry contact, voltage free switching is required or where there is a need for higher than usual currents and voltages to be switched. The double pole double throw relay, rated at 8 Amps, can be activated by power supply/high signal/low signal to switch two outputs at same time.

Features

- Interface P2/P3: Dry contact / voltage free switching Output
- Interface P1: 9- 30VAC / DC10.5 – 36 VDC input
- Nominal Current:24 mA
- Triggered by power supply/high signal/low signal
- Not polarity conscious
- No jumper links to select voltage
- LED indication when relay energized
- Works on AC or DC
