

BORG BL7001 MG Pro ECP Marine Grade Easicode Pro Digital Lock With Lever Handle And 70mm Latch

Description

The Borg BL7001 MG Pro ECP has a special black finish that offers increased UV and weather protection and is salt spray tested for 1000 hours. It is suitable for high traffic areas and can be used on internal or external wooden, composite or steel doors. This unit is supplied with a 70mm latch and features the Easicode Pro on the door code change facility, as well as free passage function from the internal handle. The keypad lever is free rotating and only engages with the clutch and 8mm spindle drive until the correct code is entered. A stainless steel coding chamber ensures longevity, and contains 12 buttons.
