

BORG BL7000 MG Pro ECP Marine Grade Easicode Pro Digital Lock With Lever Handle And No Latch

Description

The Borg BL7000 MG Pro ECP has a special black finish that offers increased UV and weather protection and is salt spray tested for 1000 hours. It is suitable for high traffic areas and can be used on internal or external wooden, composite or steel doors. It is supplied without a latch and is ideal as a replacement keypad. This unit features the Easicode Pro on the door code change facility and free passage function from the internal handle. The keypad lever is free rotating and only engages with the clutch and 8mm spindle drive until the correct code is entered. A stainless steel coding chamber ensures longevity, and contains 12 buttons.
